

**GLOBAL CHURCH GROWTH**  
**Report for December 2022 Uganda**  
**by Fred Wangwa Ugandan Director**

The discipling work continued throughout December and we provided support and guidance for the churches implementing the program and encouraged those who are taking sluggish steps as well to take a bold step towards transformation.

**Tefillah Christian Church – Mulukhu.**

We joined in the two family meetings and also brought the families together for a Jesus film show, which pulled many non-followers to participate. This was a great time with the team. The church has grown steadily since implementing the global Church growth system in July. Many people are coming to Christ and are being baptised in the name of the Lord Jesus Christ.

**Kadenge Christian Church.**

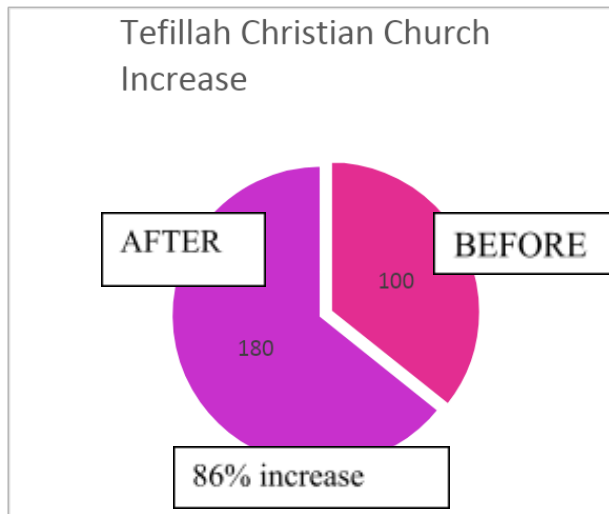

Over eighteen new followers of Christ are lined up for baptism and the church is growing steadily applying the ten list program and the family meetings, which makes it easier for the non-believers to participate in. The church is very thankful that the program is helping them to grow both numerically and spiritually.

**Bushikori Holiness church**

We also visited Bushikori Holiness Church which is beginning the ten list and dividing the church into families. Hearing the testimonies from the other churches that have applied the program, the leadership is very excited about beginning the church growth program so they can grow their own church.

We continue to encourage the churches to follow the principles of the GCG system and those who are applying it are already testifying.

## Tefillah Christian Church

Tefillah Christian Church was established in 2020 and by God's grace through the principles of Global Church Growth, the growth both Spiritually and Numerically has been overwhelming. We divided the church into three families, Shalom, Divine and Alpha and the families are growing and bringing many people to the Lord. Since the training last June, 86 people have committed to follow the Lord as their personal Lord and

saviour. Praise the Lord.

## Glorious Adonai Worship Ministries

This is a young church that had an opportunity to be trained and equipped with GCG discipling program. The program has helped them to grow and impact the Muslim community where they are based for Christ. The church has experienced over 150 percent increase in the last six months.

Message from Dr. Householder

WOW! This is what any missionary likes to hear. It is working. Our whole mission is to help others be disciples that make disciples. The Church Growth system works if implemented. It can work anywhere if there is dedication to do so. I am so proud of my men in Uganda. God willing, I will return in June to follow up and train even more churches.
